This Seminar will address selected topics at the intersection of neuroscience and public policy. The course is composed of public lectures followed by an intensive discussion covering the lecture and selected readings. There will be one lecture per month followed by one or two discussion sections. Spring 2008 speakers will include Sterling Johnson, Natasha Schull (MIT), and Stacey Tovino (Hamline University).

NEUROSCIENCE 675 (Also meets with La Follette course 974)
