NEUROSCIENCE & PUBLIC POLICY SEMINAR

“BOOKS BUILD BETTER BRAINS: THE INTERSECTION OF THE EARLY BRAIN & CHILD DEVELOPMENT, EARLY LITERACY, & PROGRAMS/POLICIES”

KAVLI FOUNDATION LECTURER

DIPESH NASARIA
ASSISTANT PROFESSOR, UNIVERSITY OF WISCONSIN-MADISON, SCHOOL OF MEDICINE & PUBLIC HEALTH
PEDIATRICIAN, ACCESS COMMUNITY HEALTH CENTERS

FRIDAY, FEBRUARY 13
4:00 PM
BIOTECHNOLOGY AUDITORIUM 1111
GENETICS & BIOTECHNOLOGY CENTER
(425 HENRY MALL)

Dr. Navsaria is a pediatrician with master’s degrees in public health and children’s librarianship who practices primary care with underserved populations and also works on child health advocacy, particularly around early childhood and brain development issues. His interests in promoting early literacy as a route to school readiness are based on deep principles of toxic stress and the importance of the first thousand days of life. This talk approaches those issues in an approachable manner based in general principles, discusses the state of literacy in early childhood, and synthesizes them together into a set of concepts to inform policy.

For additional information or questions, contact Tera Holtz at tholtz@wisc.edu or 262-4932.

Refreshments will be served in the Biotechnology Atrium at 3:30 p.m.

The Neuroscience and Public Policy Seminar Series is supported by the Kavli Foundation.
